Career Objective

B.Tech Artificial Intelligence and Data Science student passionate about software development, artificial intelligence, and emerging technologies. Seeking opportunities to apply programming skills, problem-solving abilities, and AI knowledge to build impactful real-world solutions.

Education

V.S.B. Engineering College, Karur

Expected 2027

B.Tech Artificial Intelligence and Data Science

SGPA: 7.9/10

Technical Skills

Programming Languages: Python, HTML, CSS

AI Data Science: Machine Learning Basics, Data Analysis

Frameworks: Flask (Learning)

Tools: Git, GitHub, VS Code

Core Skills: Problem Solving, Software Development, API Basics

Projects

CareerOS AI

AI Career Assistant Platform

- Designed an AI-powered career guidance platform to help users with skill development and career planning.
- Integrated intelligent recommendations and structured learning pathways.
- Focused on improving user experience through automation and AI-driven insights.

Movio AI

AI Video Generation Concept

- Developed a concept for an AI-based platform to generate and enhance short-form videos.
- Designed user interface ideas and explored AI-powered content creation workflows.

Internship Experience

Software Development Intern

- Worked on software development practices including coding, debugging, and application development workflows.

Full Stack Development Intern

- Developed responsive front-end interfaces and explored backend API integration.
- Improved understanding of full-stack application architecture.

DevOps Intern

- Learned DevOps fundamentals including deployment processes, version control, and development operations.

Certifications

- Introduction to Microsoft 365 Copilot – Microsoft
- AI Fundamentals – IBM SkillsBuild
- AI Courses – Infosys Springboard
- Python Programming Certification

Achievements

- Participated in AI and technology-focused hackathon activities.
- Built AI-based project ideas focusing on automation and productivity improvement.
